

New Conditions for Entering the State Border of Republic of Croatia

[Latest update: May 28, 2020]

According to the decision of the Civil Protection Headquarters of Republic of Croatia, about the temporary ban on crossing the state border at the border crossings of the Republic of Croatia, today the decision was complemented with the following information.

The nationals of the members states of the European Union: **Czech Republic, Hungary, Republic of Austria, Republic of Estonia, Republic of Latvia, Republic of Lithuania, Republic of Poland, Republic of Slovenia, Federal Republic of Germany and Slovak Republic**, due to the convenient epidemiologic situation, will not have to - when entering the Republic of Croatia, specifically prove the reason of their entrance (business, economic, tourist, etc.). They will be **allowed to cross the border under the same conditions as it was before the pandemic COVID-19**, but with the epidemiologic control and according to all the measures and recommendations of the Croatian Institute for Public Health.

In order to be able to contact the nationals of the member states in Republic of Croatia, due to the epidemiological reasons, on crossing the state border their entrance will be recorded by collecting the additional information (travel destination, mobile phone number and e-mail address).

With the aim of decreasing the time of crossing the state border which will be extended compared to the previous years, due to the collection of additional information, we recommend to foreign nationals who will travel to Republic of Croatia to **send their information in advance via web entercroatia.mup.hr**.

The web site has accessible design and is easy to use; it has a form available in Croatian and English to enter all the necessary information, and in the following days, it will be available in other languages (German, Slovenian, Hungarian, Czech, Slovak, Polish, etc.)

For all travellers who will send their data via the web it will not be necessary to wait at the cross border, because the information will already be collected in the system. All travellers who will send their information in that way, they will receive at their e-mail address the confirmation of the received announcement and all other information regarding the measures and recommendations of the Croatian Institute for Public Health.

The travellers who will not send their information in advance via the above-mentioned application, they will be able to do that at the border on entering the Republic of Croatia, but it is possible that they will have to wait longer at the border.

#EnjoyTheViewFromCroatia

Dear travelers, Croatia welcomes you.
To make it easier for you to enter and stay in Croatia, please choose your language and proceed to filling out the form.
Enjoy Croatia and stay responsible!
